

WG Platemount -S / -C

PLATE MOUNTING SYSTEM

FAST. PRECISE. EASY. PLATE MOUNTING MADE SIMPLE.

The WG Platemount -S and -C are designed for fast, accurate and repeatable mounting of flexographic plates. Engineered for efficiency and ease of use, they significantly reduce make-ready time and improve print quality.

HIGH PRECISION

Accurate positioning along the centre line under the cylinder.

VISION SYSTEM

High resolution cameras and 19" split screen monitor for precise alignment.

FAST SETUP

Plate mounting completed in seconds.

6-WAY ADJUSTMENT

Easy and precise adjustment in all directions.

USER FRIENDLY

Ergonomic handles and air cylinder operation for effortless control.

DURABLE DESIGN

Stable structure with rubber platform to protect the cliché.

WG PLATEMOUNT -S

FOR SLEEVES

Ideal for mounting plates on sleeves with maximum accuracy and repeatability.

- ✓ Suitable for a wide range of sleeve sizes
- ✓ Quick positioning with handle adjustment
- ✓ Print rollers on top ensure camera safety and easy roller change
- ✓ Changeable pin holder design fits most printing roller types

WG PLATEMOUNT -C

FOR CYLINDERS

Designed for mounting plates directly on printing cylinders.

- ✓ Flat table structure for accurate positioning
- ✓ Air cylinder controls printing roller up/down
- ✓ Moveable camera system for different cylinder widths
- ✓ Fast plate mounting saves time and increases productivity

TECHNICAL SPECIFICATIONS

Max Printing Roller Width	350mm / 450mm
Printing Roller Size	Ø76-192 mm (241.3mm – 609.6mm)
Power Supply	220V, 1Phase, 50HZ
Weight	170 KGS
Dimension (L*W*H)	1.05m x 0.6m x 1.5m

KEY FEATURES

- ✓ Flat table structure with rubber platform for cliché protection
- ✓ High precision linear guide rails for smooth and accurate movement
- ✓ Twin channel processor links camera images and target cross overlay on 19" split screen LCD panel
- ✓ 1300000 pixel HD camera with 50x optical zoom lens (Japan)
- ✓ Printing roller up/down controlled by air cylinder
- ✓ Move table to mount the plate in just a few seconds
- ✓ Camera and table adjustments are independent for maximum flexibility
